Introduction to LabVIEW

October 14, 2008

www.robojackets.org

Goals for Today

- Get everyone up and running with LabVIEW
 - Install LabVIEW
 - Install the NXT Toolkit
- LabVIEW overview
- Introduction to the NXT Toolkit

Installing LabVIEW

Installing LabVIEW

- **Windows** (XP, Vista tried)
 - Insert CD, click **setup.exe**
- **Mac** (Not tried - yet)
 - Insert CD, **copy** to app folder
- No **Linux** support
for toolkit :(

Installing LabVIEW

- Hopefully everyone has done this...
- If not, you should get started (we can help)
- Did anyone have any problems/thoughts?
(that everyone should know about)
- Notable fringe cases? (Mac, Vista, Linux,
under virtualization?)

Installing the NXT Toolkit

1. Connect to wireless network **maria**
2. Open a browser (Firefox, IE, etc.)
3. Type **sara**, hit **enter**
4. Download either **win.zip** or **mac.zip**
5. Download **patch.zip** (for later)
 - If you can't figure that out, I've also got CDs
 - Or you can download from
<http://zone.ni.com/devzone/cda/tut/p/id/4435>

Installing the NXT Toolkit

1. Unzip the toolkit
2. Close LabVIEW
3. Windows
 1. Click **setup.exe**
4. Mac
 1. Mount image
 2. Read instructions (no idea)

Installing the NXT Toolkit

Patch for 8.5

1. Unzip **patch.zip** and open the directory where LabVIEW is installed
C:\Program Files\National Instruments\LabVIEW 8.5\
2. Copy **vi.lib** directory and paste it into the LabVIEW directory
3. In the copy warning dialog box, select **Yes to All**

Installing the NXT Toolkit

Mass Compiling

1. Launch LabVIEW
2. Select **Tools >> Advanced >> Mass Compile**
3. Browse to
LabVIEW 8.5\vi.lib\addons\NXTToolkit
and select **Current Folder**
4. Click **Mass Compile**
5. Wait ...

LabVIEW Overview

What is LabVIEW?

- LabVIEW is a graphical programming language
- Intuitive
- Used in research, industry and education (that's us!)
- Instrumentation

Data Flow

- Graphical programming language
- *Data Flow* language

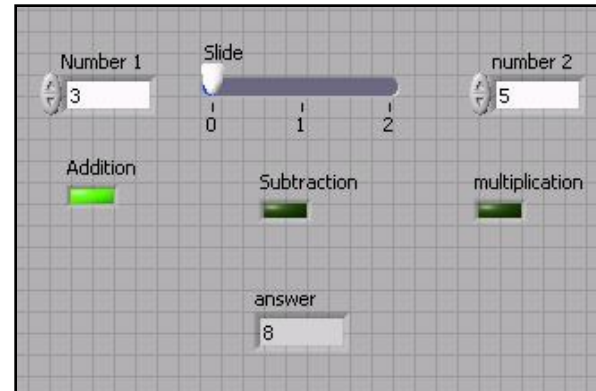

LabVIEW Virtual Instruments

Front Panel

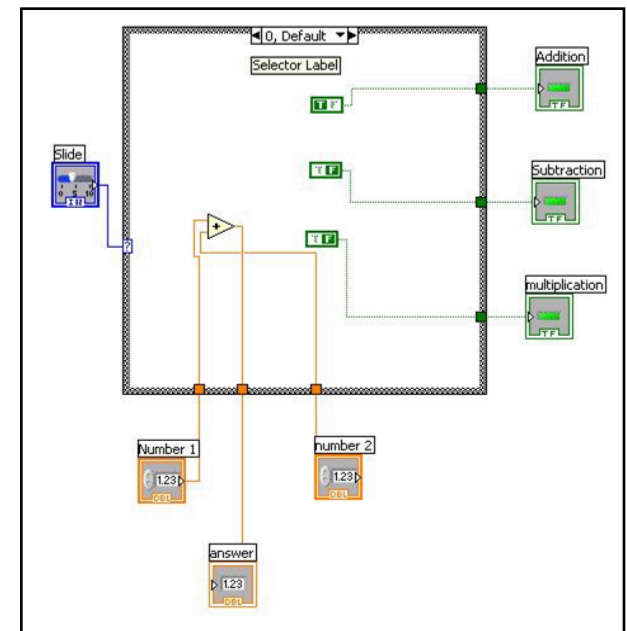

- User Interface
 - Controls = Inputs
 - Indicators = Outputs

Block Diagram

- Data travels on wires from controls through functions to indicators
- Blocks execute by dataflow

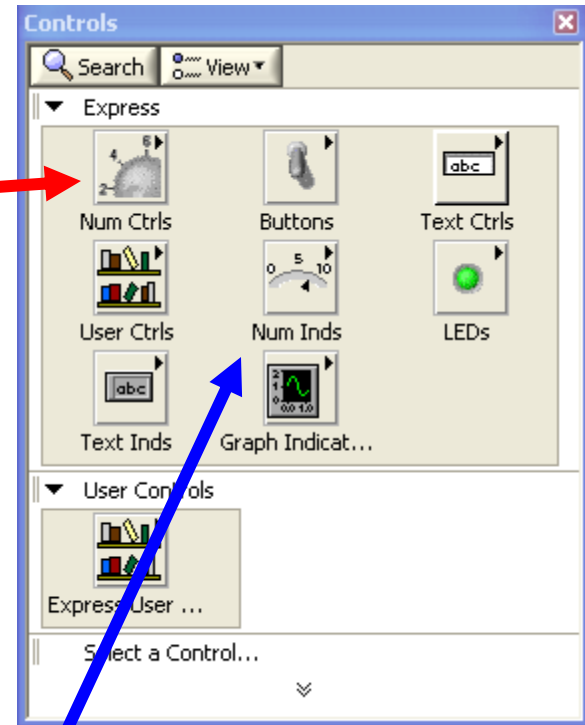

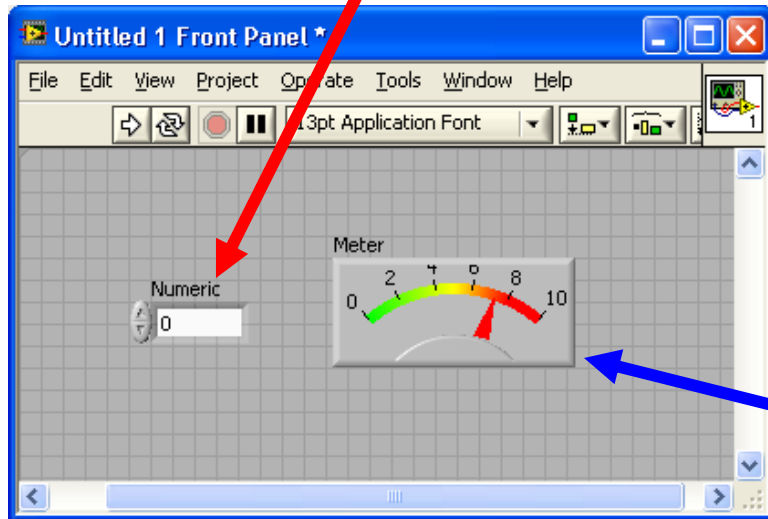

Called
“VI”

Controls Palette

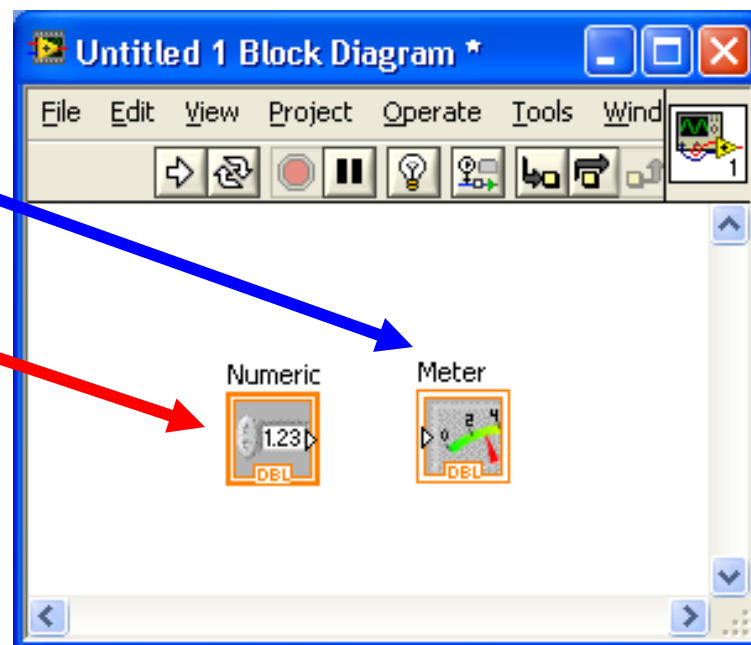

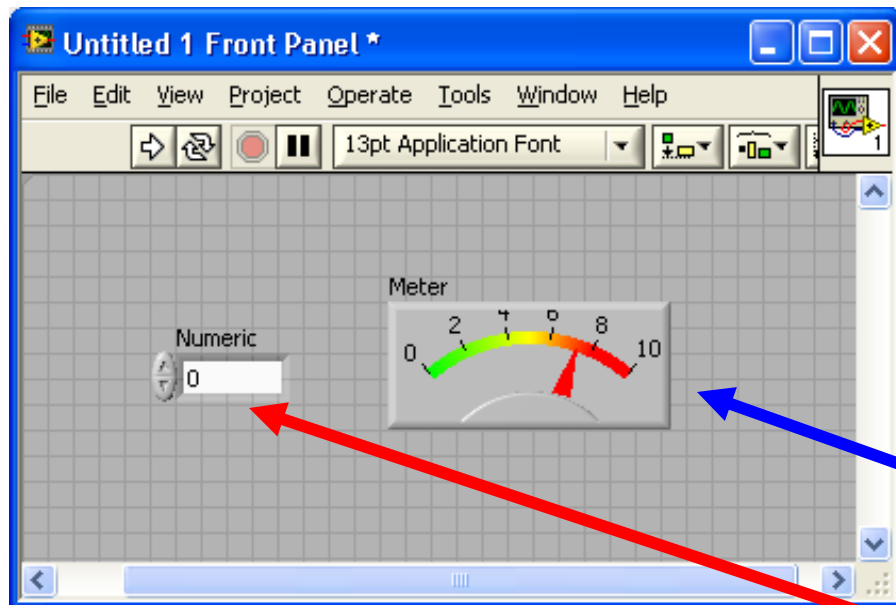

**Control
Numeric**

**Indicator
Meter**

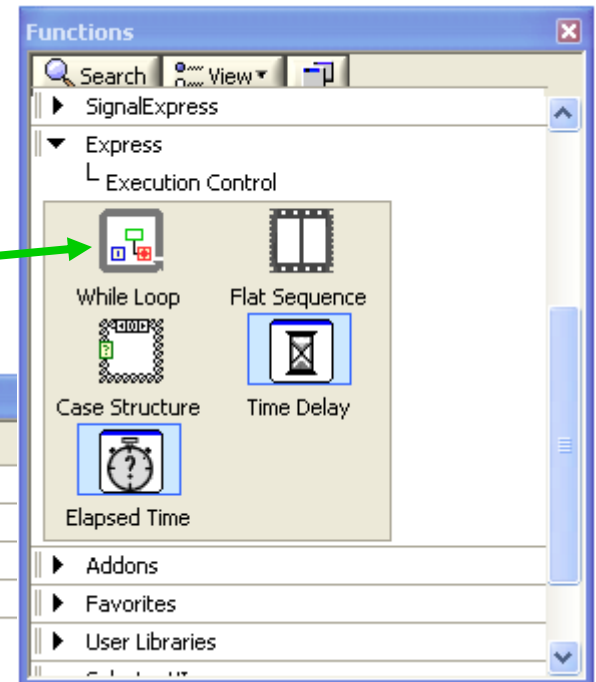

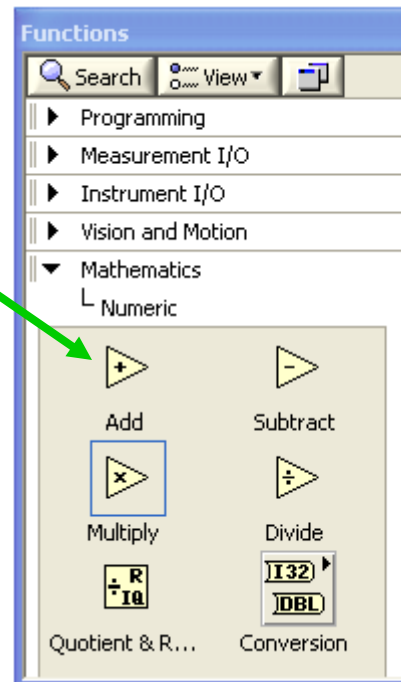

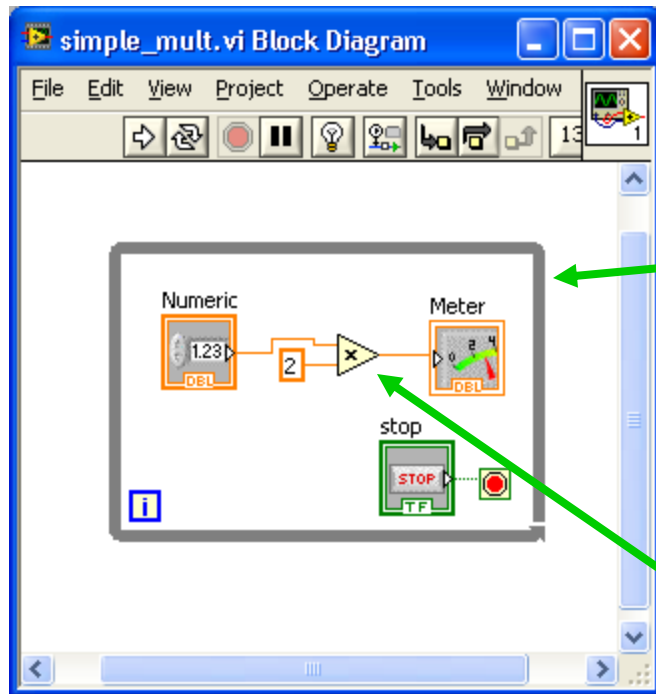

Front Panel Block Diagram Mapping

Functions and Structures Palette

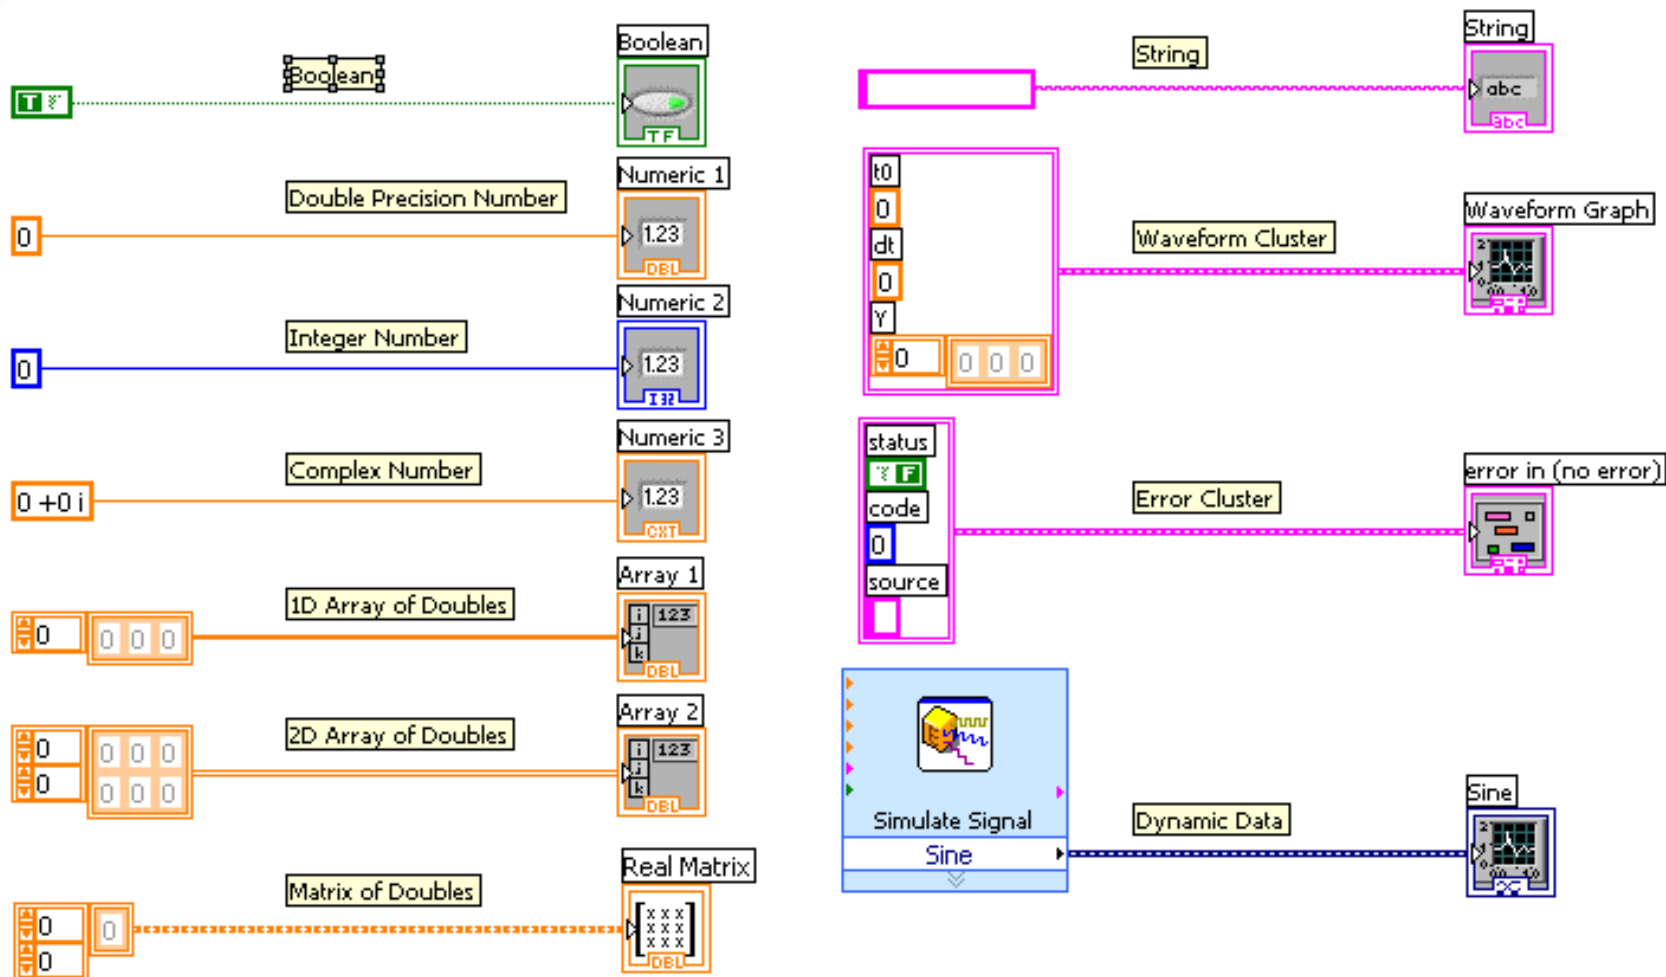

Types of Functions

- **Express VIs:** Interactive Vis with configurable dialog page (blue)
- **Standard VIs:** Modularized VIs customized by wiring
- **Functions:** fundamental elements of LabVIEW (yellow)

Variables

Status Toolbar

Run Button

Continuous Run Button

Abort Execution

Additional Buttons on the Diagram Toolbar

Execution Highlighting Button

Retain Wire Values Button

Step Function Buttons

It's Broken :(

- **Finding Errors**

Click on broken **Run** button.
Window showing Error appears.

- **Execution Highlighting**

Click on **Execution Highlighting**; data flow is animated using bubbles. Values are displayed on wires.

- **Probes**

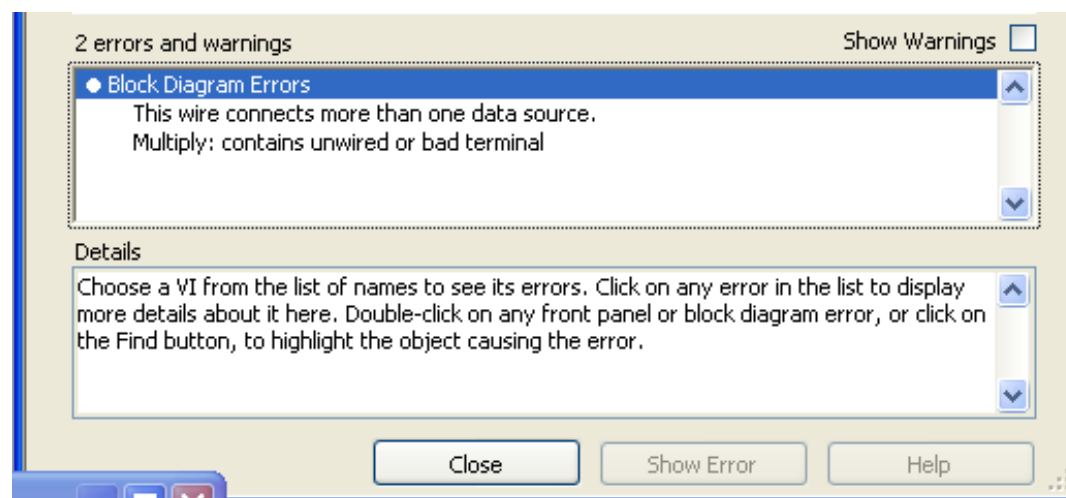

Right click on a wire to display a probe which shows data as it flows through the wire segment.

You can also select the probe tool from the Tools palate and click on a wire.

Broken Example :(

Protips

- <Ctrl+H> – Context Help
- <Ctrl+E> – Toggle Between Front Panel and Block Diagram
- <Ctrl+Z> – Undo
- **<Ctrl+B> – Remove Broken Wires from Block Diagram**

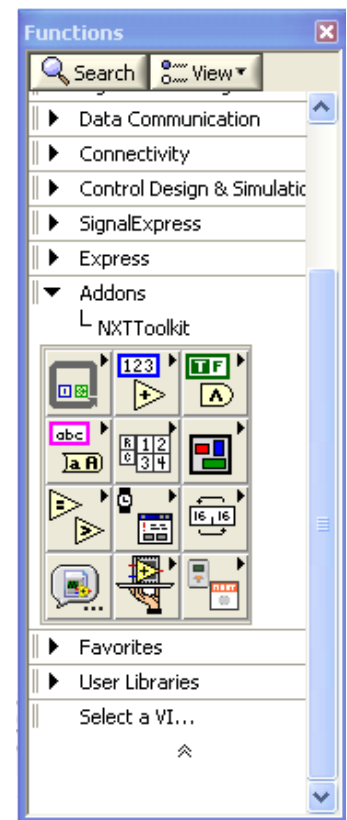

NXT Toolkit

NXT Toolkit

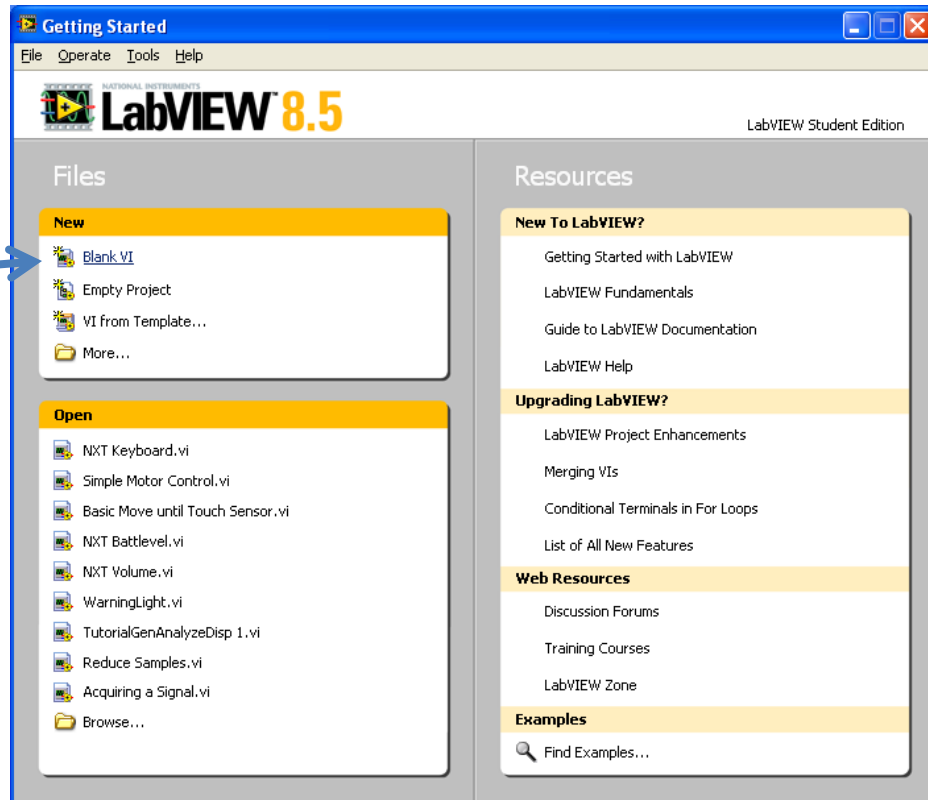

- Only blocks in the NXT Toolkit can be used with the NXT
- Math, motor control, flow control (while loops etc), sensors, readouts...

NXT Toolkit Activity

Make a new VI

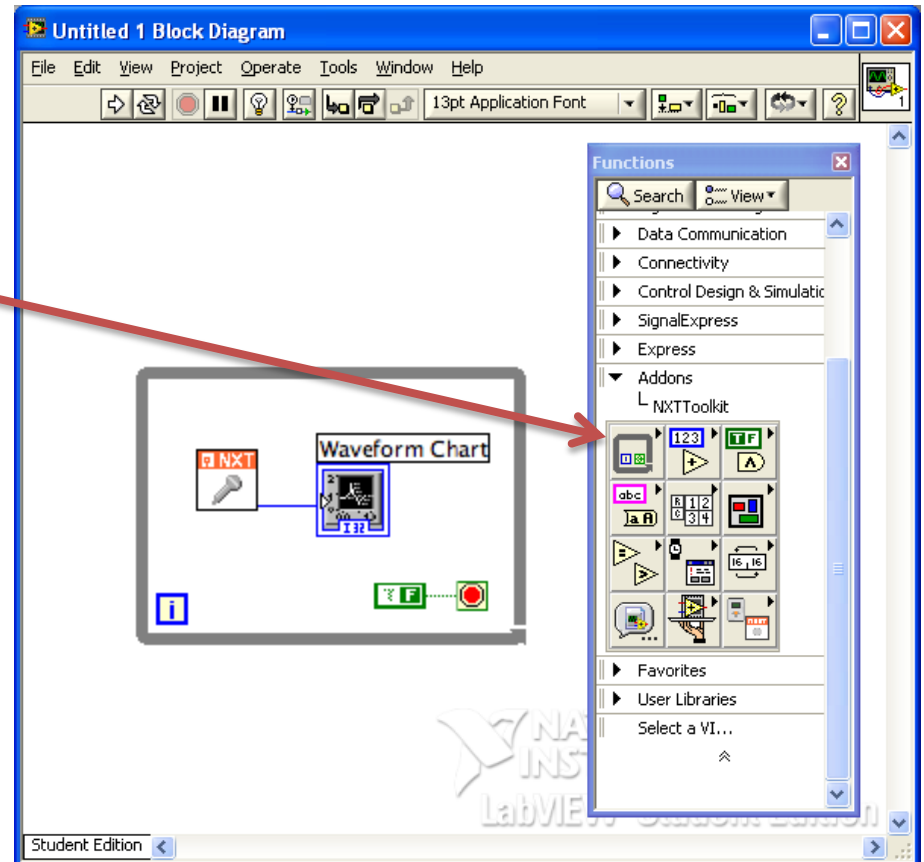

NXT Toolkit Activity

Add a **while loop**

NXTToolkit>>

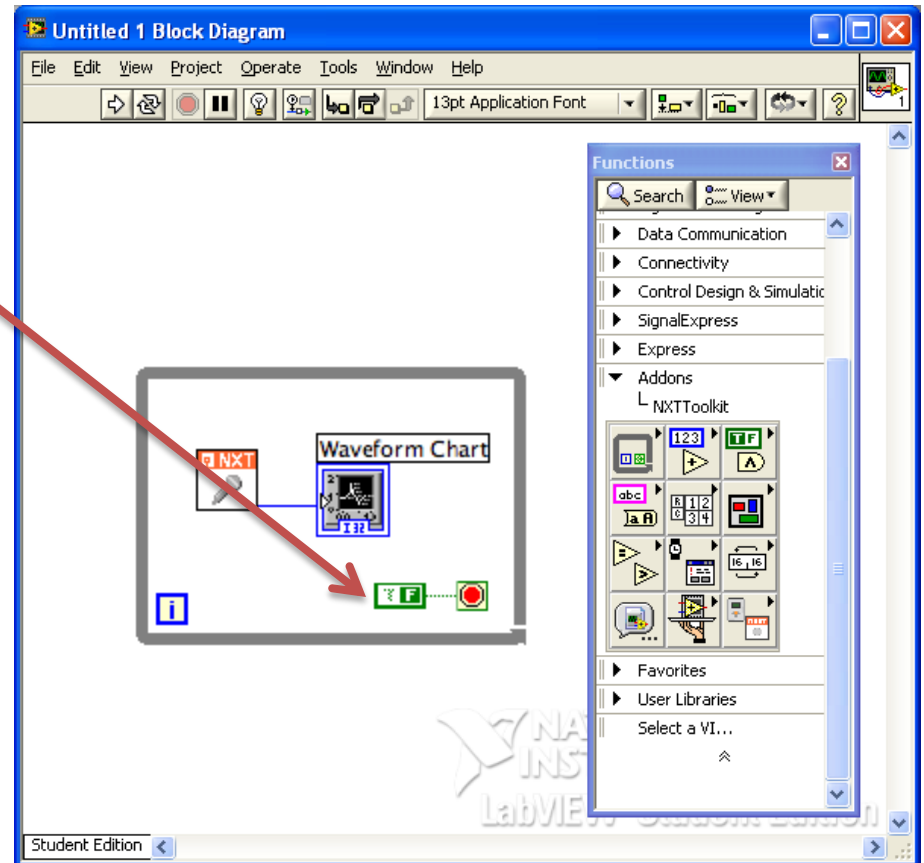

Structures>>While Loop

NXT Toolkit Activity

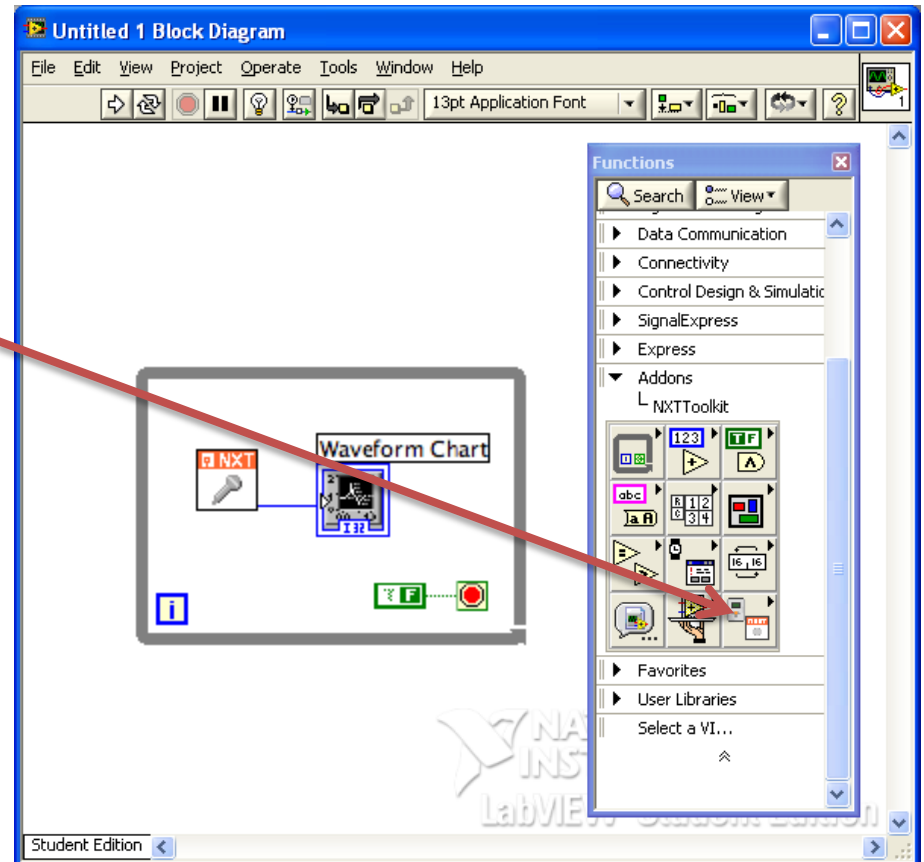

Create a **constant**
for the loop

NXT Toolkit Activity

Add a Sound Sensor

**NXTToolkit>> NXT Library>>
Input>> Sound Sensor**

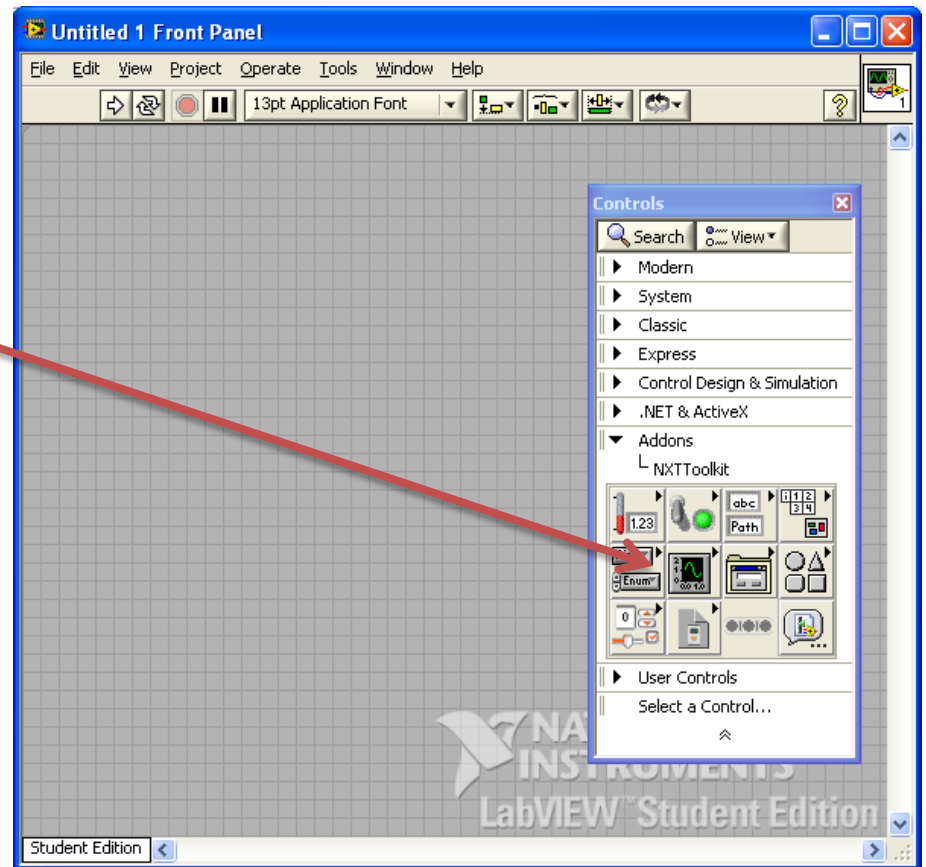

NXT Toolkit Activity

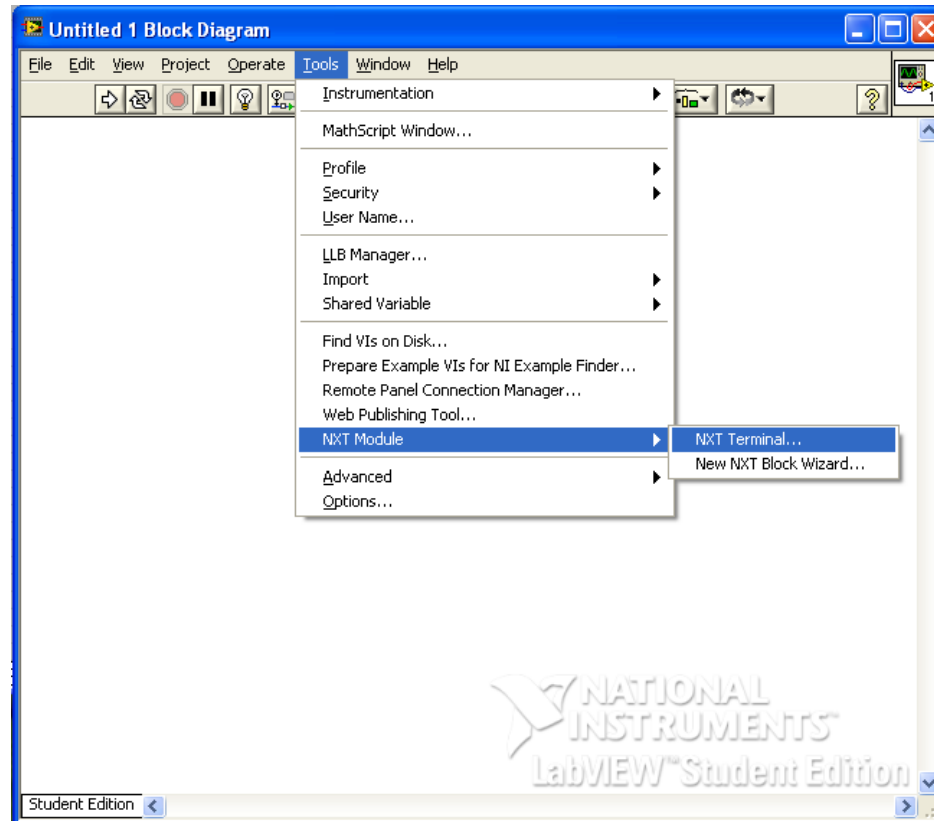

Add Waveform Chart
(On the front panel)

**NXTToolkit>> Graph>>
Waveform Chart**

Running a VI on the NXT

Running a VI on the NXT

Find your NXT

Select your VI

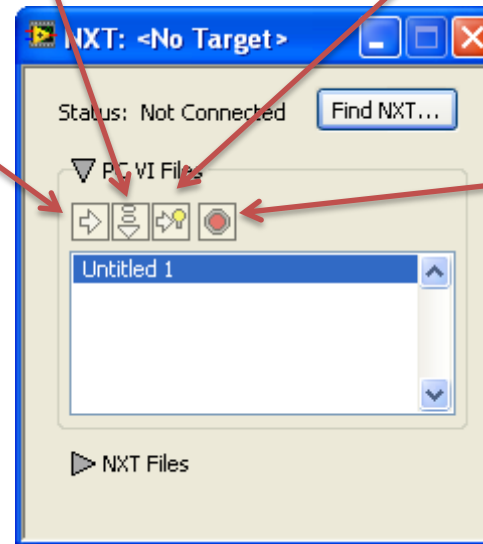

Running a VI on the NXT

Compile and Download the VI without running it

Debug – compile, download and run the VI while maintaining a link to the host computer

Compile, Download and Run without maintaining a link to the host computer

Abort stops running the VI

Title 17 Chapter 1 107. Limitations on exclusive rights: Fair use

Notwithstanding the provisions of sections 106 and 106A, the fair use of a copyrighted work, including such use by reproduction in copies or phonorecords or by any other means specified by that section, for purposes such as criticism, comment, news reporting, teaching (including multiple copies for classroom use), scholarship, or research, is not an infringement of copyright. In determining whether the use made of a work in any particular case is a fair use the factors to be considered shall include—

- (1) the purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes;
- (2) the nature of the copyrighted work;
- (3) the amount and substantiality of the portion used in relation to the copyrighted work as a whole; and
- (4) the effect of the use upon the potential market for or value of the copyrighted work.

The fact that a work is unpublished shall not itself bar a finding of fair use if such finding is made upon consideration of all the above factors.
